# Water Pumps

Our selection of pumps are renowned for their high efficiency and reliability throughout the range. Built to deliver optimum efficiency during periods of high demand, these pumps provide low long-term costs and high operating reliability regardless of the application.

# Water Softener

The presence of excess minerals such as calcium and magnesium makes water hard. Hard water leads to a variety of problems such as foul plumbing, scaling, galvanic corrosion, dry skin, and brittle hair. KENT, a market leader in providing technologically advanced products, provides best hard water softener for home and office.

# Water Pipes

Plumbing systems are used for potable water supply in buildings which can be used for drinking and various other purposes. This consists of supplying water to the kitchen and toilet outlets via a distribution system of pipes i.e. plumbing pipes. For your plumbing system, CPVC, PVC and Pex Plumbing Pipes are used. Astral Pipes offers the best plumbing fittings and pipes. You can choose from the different plumbing pipe types which include Astral

CPVC PRO, Astral Pex-a PRO, Astral Aquarius uPVC – which are domestic plumbing pipe options for hot/cold water. For more details about the domestic plumbing pipes and fittings and plumbing pipe brands, you can refer to our list below. For the distribution system, GI, copper, HDPE, CPVC pipes are mostly used. However, CPVC plastic pipes are the one that are more favoured these days.

# *Swimming pool Consultant*

If the idea of a swimming pool in your house or garden excites you, the thought of sourcing a competent pool designer and builder to construct it may well daunt you in equal measure.
